

1st Announcement

International Workshop on Density Functional Theory – Present and Future Challenges

(13-14 May 2010)

and

10th deMon developers Workshop

(15-18 May 2010)

<http://demon2010.ufmg.br>

I have the pleasure to announce the International Workshop on DFT and the 10th deMon developers Workshop which will be held at Belo Horizonte, Brazil, in the period of May 13 -18th 2010.

At this time, we are proposing an open session for the Brazilian community of theoreticians which will be held at May 13-15th. The deMon developers workshop will take place in the period of May 16-18th. The workshop program will include brain storm, working groups, discussions and talks.

Even though the present financial limitations in Brazil, efforts are being made to support partially the attendants concerning the local transport and accomodation.

I hope the whole deMon family can meet in Brazil at the campus UFMG (<http://www.ufmg.br>). I should remember that the leaving expenses in Brazil are relatively low.

A second announcement will be released with the deadlines in the beginning of 2010. The registration period will start at February.

I hope to see everybody soon;

Hélio A. Duarte
